FOR  
**MAYOR**

**LEPAGE MAKES  
EDUCATION A  
PRIORITY WITH  
"LESS TALK AND  
MORE ACTION"**

*"I will be transparent with our community regarding any issues that exist at the schools or anywhere else in the city. I will make no attempt to hide or ignore them. The first step in addressing any issue is to acknowledge that it exists." - Colin LePage*

on November 2**

# Inaction vs. Action

THE DIFFERENCE BETWEEN FIORENTINI AND LEPAGE

During Mayor Fiorentini's tenure as Chairperson of the School Committee, he reduced the number of middle school health education teachers from four to one to cover all four of our middle schools. **Is that leadership in education?**

In 2015, LePage addressed the issue, advocated for the reinstatement of the health program and now there are once again four health education teachers for our four middle schools.

## When elected Mayor, LePage pledges to:

- Create a school safety subcommittee with student, parent, teacher, police, school counselor and school committee representation.
- Create a full-time city grant research/writer position to maximize public and private grant money for education and social services.
- Address the major social, health and physical impacts presented by the COVID pandemic upon students and faculty.

## Vote Colin LePage on November 2
